***A project driven by
European youth***

HISTORY

Trina Orchestra is **the fruit of the twinning** of three European cities, keen to share their values and strengthen their relationship; a musical and cultural adventure, **unique in Europe for the past 13 years.**

One season is comprised of **four episodes**, ending with a "best of", during which all the musicians from the last season are invited back to play their **favorite songs.**

SEASON I

2011 • Gerstetten (D)
2012 • Cébazat (F)
2013 • Pilisvörösvár (H)
2014 • Gerstetten (D)

SEASON II

2015 • Gerstetten (D)
2016 • Pilisvörösvár (H)
2017 • Cébazat (F)
2018 • Gerstetten (D)

SEASON III

2019 • Cébazat (F)
2022 • Gerstetten (D)
2023 • Pilisvörösvár (H)
2024 • Gerstetten (D)

Year after year, Trina has become a true **melting-pot**: despite their different languages and backgrounds, these young people have been brought **together** by music, creating a project with a **universal appeal.**

In 2012, Trina Orchestra won the European Medal awarded by MEP Inge Graessle

After three seasons that have enabled the project to **develop**, Trina Orchestra is back in **2025** for a new season in an **original format.**

INVOLVEMENT

Trinasians are **fully involved** in the search for funding, approaching foundations and companies, as well as collecting money at **concerts and refreshment stands.** This adventure, therefore, goes far beyond the simple musical aspect, and allows Trinasians to be involved in **every facet** of the project.

Trina is a project that is **partly self-funded.** Thus, during the year, in their country, Trinasians organise concerts and selling drinks, food and goodies to **help finance the project.** Others **reach out to companies or sponsors** to attract new partners to finance Trina.

This involvement also covers the consequences of the project, and in particular its **environmental footprint.** Trina strives to have a **low environmental impact**, preferring to travel by **train** rather than by plane, using **local food** and supporting **environmental organizations.**

SOLIDARITY

Aware of the issues faced by many territories around the world, the **charitable dimension** has always been an **important issue** for Trina.

Since season 3, **at each episode**, Trinasians choose an organization that helps **young people**, whether in education, migration or health. All the **benefits collected during concerts** are donated to help **finance new projects**.

2022 • Germany

Support for Ukrainians

In 2022, the funds raised were donated to a humanitarian aid organization supporting young Ukrainians facing hardships due to the war. This contribution aimed to provide essential assistance and improve their living conditions during the conflict.

2024 • Germany

Freundeskreis Integration

The Freundeskreis Integration association, founded in 1987, supports the integration of exiles and immigrants in Germany. It provides critical assistance to individuals who have endured trauma during their migration journey, fostering social inclusion and aiding their adaptation to a new society.

2019 • France

Ensemble pour le Mali

Ensemble Cébazat for Mali, part of the Ensemble NGO network, has been supporting the village of Dassi in Mali since 2005, raising funds and providing ongoing technical assistance for agricultural equipment, seeds, a grain mill, a borehole, and a water supply system.

2023 • Hungary

Bátor Tábor Foundation

Bátor Tábor Foundation provides life-changing experiences to seriously ill children and their families through therapeutic recreation. Operating in Central Europe, it brings joy and strength to children in hospitals, homes, and schools, fostering courage in difficult situations.

WHAT IS IT?

The conceptual basis of the project is the **understanding of each other** and the acceptance of existing national differences as an enrichment of a Europe **that grows together**.

Over a

100

amateur musicians from twinned towns get together for a week to create music. It's a unique opportunity for **young people** aged 14 to 25 to forge relationships that develop throughout the years.

Exchange

Share

Communication is **at the heart of the project**, both to create memories for the musicians and to make the project as widely known as possible. For this, a video is published **every day**, allowing the families to follow the project from their living rooms. Trina is also improving its content on **social media** to give a **behind-the-scenes** look at the week.

BEYOND MUSIC

Beyond the music itself, this **human adventure** is a highly enriching experience, encouraging **exchanges of ideas**, values and cultures, which unconsciously help these young European citizens to **grow**.

The week is thus marked by times of **linguistic, culinary and heritage discoveries**, enabling the musicians to understand the specificity and **cultural richness** of these three countries.

After spending several days together, the Trinasians are welcomed by their **host families**, mainly made up of members of the **twinning organization**. An opportunity to fully appreciate the way of life of the local community and discover the **region's cultural heritage**.

LEARN & SHARE

Trina Orchestra makes it a matter of honor to give the **spotlight to young people**:

The musicians give a young composer the opportunity to create a unique piece specifically for them.

One of the project's early members began his training by filming the daily lives of Trinasians. He now works as a producer in the audiovisual sector.

Another one passed his conducting exam with the Trina Orchestra.

These and **many other examples** are at the **heart of the project's philosophy**. Trina supports the young musicians as they **build and develop their career**.

But Trina Orchestra is trying to expand its values in **other fields** than music. This is how **Trina News**, the new **online media** created by and for the European youth, was born **in 2023**.
